Financial Statement.

NEW YORK, April 6.—The obviously speculative feature of today's market may be judged from the fact that a half dozen special issues notably Mercantile Marine, Crucible Steel, Mexican Petroleum, International Nickel, United States Industrial Alcohol and American Zinc, more or less in the order named, supplied from one-quarter to one-third of the day's total business. Alcohol's extreme rise of 4 1/2 to the new record of 170 1/2 and Zinc's gain of 2 1/2 to the new maximum of 92 1/2, were attributed to a drive against the short interest in those issues, the same probably applying to the rise of most of which was later forfeited.
